

SECURITY ALERT FOR INDIAN NATIONALS **IN ETHIOPIA**

While there are no specific or identified security threats, the Indian Embassy advises its nationals in Ethiopia to adopt increased security awareness and precautions during the next one month, especially, on Election Day May 24th, 2015.

Indian nationals may avoid visiting venues and areas that are part of the election process, as well as crowded public or private areas or establishments during this period.

Ethiopia is relatively one of the safest places on the African continent, but it will be in the interest of personal safety and well being that Indian nationals do not ignore basic safety precautions at all times.
